

SOFTWARE OVERVIEW

WurkBook-GHMS

Gun House Management System

Complete digital control for licensed firearm dealers — products, vendors, purchases, sales, and compliance on one secure platform.

What is WurkBook-GHMS?

An integrated, cloud-based platform for firearm business operations

WurkBook-GHMS manages the full lifecycle of a licensed firearm business — from products and vendors to billing, accounting, and financial-year cashbook reporting — in a single secure system.

Built on modern technology, it delivers real-time data access at high speed, cutting manual workload and errors, while supporting simultaneous multi-user access with full control and security.

Arms

Firearm inventory & records

Ammunition

Stock & quota tracking

Others

Accessories & permits
